			Total	100,00

1/ Weigh Zemea Select Propandioli, Inagel Quick Konjac TR and Kelco-Care Duitan Gum into a main vessel and disperse. Add the rest of phase A into main vessel and mix.

3/ Add phase B into another vessel and dissolve by heating.

4/ Add phase C into another vessel and dissolve.

5/ Add phase B into phase A and homogenize at high temperatures. Cool the batch to 35°C.

6/ Add phase C+D and stir. Cool the batch to room temperature.
